NHS INSTITUTE

Operational Excellence Leadership Masterclass

Learn how to increase the traction of Continuous Improvement in your organisation.

This highly acclaimed annual two-day residential workshop is specifically designed to help leaders in Operational Excellence improve their skills and become more effective.

A highly interactive mixture of inputs and syndicate work will broaden your perspective by reference to our health check database, examples of best practice and through interaction with other participants and speakers.

Why Process Insight Consulting?

Simple but effective model

- The workshop is structured around our Operational Excellence model
- As course prework you will be expected to complete our audit questionnaire to give you some useful benchmarks in all the key areas of operational excellence

Experience

- We have a wealth of experience of leading and supporting operational excellence programmes in a wide range of countries and sectors.

Practical advice and support

- We quickly understand your business and issues then help you develop practical next steps to improve your effectiveness.

Great Speakers

- Facilitators Andy Liddle and Andrew Ruddick will be joined by a variety guest speakers.

2 Day Course

Contact:

Andrew Ruddick Tel: + 44 (0) 7785 927144 Email: ar@process-insight.co.uk
or **Andy Liddle** Tel: +44 (0) 7860 622166 Email: al@process-insight.co.uk

Guest Speaker

Derek Whitworth

Operating Partner
Pamplona Capital Management

We are very fortunate to have Derek again as our main speaker.

He has a formidable track record of leading highly successful turnarounds in 3 very different organisations.

With an approach based on the implementation of Lean Sigma, Derek will share his experiences in an interactive workshop session and then be available for informal discussions over dinner.

This course is a recognised key element of the British Quality Foundation Master Black Belt certification programme.

Our products and services are approved by the British Quality Foundation & meet their rigorous requirements.
